

Test Anxiety

Winter Sessions January - March 2020

These **free sessions** are intended to provide parents, caregivers, teachers, and community members with basic information about addiction and mental health challenges that can impact children and youth. Presentations are hosted in schools but are open to all adults to attend.

Strategies for Success

This session is for caregivers and teens together (Grades 7-12).

Does your teen prepare for a test only to freeze or blank out during the test? Does your teen's anxiety hold them back from their full potential? Test and performance anxiety is very common among students. This session will help teens learn how to succeed in spite of their anxiety and help caregivers support their teens to reduce test anxiety. We will explore what happens when a student experiences test anxiety and provide practical strategies and resources for you and your teen to use to manage anxiety symptoms.

Breaking the Cycle of Anxiety

Winter Sessions January - March 2020

These **free sessions** are intended to provide parents, caregivers, teachers, and community members with basic information about addiction and mental health challenges that can impact children and youth. Presentations are hosted in schools but are open to all adults to attend.

A Step by Step Approach

Focus is on caregivers of kids and teens (Grades K-12).

Anxiety is one of the most common mental health complaints in children and teens today. This session will distinguish between normal anxiety and anxiety that is no longer helpful or productive. It will help caregivers to identify signs that a child or adolescent is experiencing problems with anxiety. Caregivers will gain step by step strategies to assist their child/teen to manage their anxiety and improve their mental health. Resources for parents will be provided as well as tools designed to reduce anxiety.

Executive Functioning

Winter Sessions January - March 2020

These **free sessions** are intended to provide parents, caregivers, teachers, and community members with basic information about addiction and mental health challenges that can impact children and youth. Presentations are hosted in schools but are open to all adults to attend.

Building Resiliency in Elementary School Children

Focus is on caregivers of kids in elementary school (Grades K-6).

Take a peek inside the developing brain of a child to learn about the processes that enable kids to engage in problem solving and goal directed behaviors. These executive functioning skills are considered to be essential for children to succeed in school and later in life. Learn about these skills and how they impact learning, behavior, emotions, and social interactions. Caregivers will be provided with strategies and resources to assist their children in building their executive functioning skills, including inhibition, working memory and mental flexibility.

Mindfulness

Winter Sessions January - March 2020

These **free sessions** are intended to provide parents, caregivers, teachers, and community members with basic information about addiction and mental health challenges that can impact children and youth. Presentations are hosted in schools but are open to all adults to attend.

Benefits for the Whole Family

Focus is on caregivers of kids and teens (Grades K-12).

Have you heard about mindfulness? Interest in mindfulness is growing rapidly in schools, communities, and in health-care settings as an evidence-based way of promoting wellness in children, teens, and adults. It can build empathy and optimism in kids, and enhance school performance by supporting the development of executive function (e.g. attention) and self-regulation skills. Caregivers will learn activities the whole family can use to reduce stress and enhance wellbeing.

Supporting Children and Adolescents with ADHD

Focus is on caregivers of kids and teens (Grades K-12).

Attention Deficit Hyperactivity Disorder (ADHD) is one of the most common mental health conditions diagnosed in children. Come and learn about the signs and symptoms of ADHD, ways that ADHD impacts academic achievement, self-worth, and relationships. You will leave with new strategies (not solutions) and resources for supporting success in children as adolescents with ADHD.

Technology and the Teenage Brain

Winter Sessions January - March 2020

These **free sessions** are intended to provide parents, caregivers, teachers, and community members with basic information about addiction and mental health challenges that can impact children and youth. Presentations are hosted in schools but are open to all adults to attend.

Supporting the Digital Wellbeing of Families

This session is for caregivers and teens together (Grades 7-12).

Technology is a huge part of our children’s lives—and a common concern for most parents who are learning how to keep up in an ever changing world. Social media, video gaming, internet use and cell phones may already be topics of debate within your family. Come together to learn how this modern use of technology can impact the developing teenage brain. This session will review some of the risks but also the benefits of technology. Parents and teens will learn ways to stay safe and balanced in the use of technology to better support positive mental health.

Supporting Self-Regulation in Elementary School Children

Winter Sessions
January - March 2020

These **free sessions** are intended to provide parents, caregivers, teachers, and community members with basic information about addiction and mental health challenges that can impact children and youth. Presentations are hosted in schools but are open to all adults to attend.

Focus is on caregivers of kids in elementary school (Grades K-6).

Do you wish you have more information to help children handle strong emotions? Did you know that self-regulation is an essential element to lifelong success? This session will define self-regulation and how it is used in everyday life. It will provide a helpful review regarding the development of self-regulation in children. The strategies and resources provided will empower and foster caregivers' essential skills to increase children's mental health and resiliency.
