

Project Profiles

Project I Strathcona Christian Academy

Scope I Lease Support

Annual Cost I \$218,054

Rationale I Provides for leasing of 6,694 square meters of space at the Sherwood Park Alliance Church for the alternative Christian program operated at this school.

Project I Portables - Additions/Relocations

Scope I New Construction and/or Relocation

Annual Cost I Varies from year-to-year

Rationale I Each year Alberta Infrastructure requests School Boards to identify emergent needs for portables for the coming school year. The annual cost represents the approximate cost to add new portables, relocate existing portables and/or dispose of aging portables in any given year. The final amount will vary year-to-year.

Project I Sherwood Heights Junior High School

Scope I Modernization and Gymnasium Addition

Annual Cost I \$11,837,245

Rationale I Total modernization of the 1958, 1959, and 1985 sections including architectural finishes, building envelop, barrier free access and mechanical and electrical systems. The Gymnasium addition is required to accommodate school capacity and provide a safe environment for physical activity. This school was re-evaluated in October 2001 with a SFEP score of 1130.

Project I Modernize Fultonvale K-9 School

Scope I Modernize Core School and Add Additional Space With Portables

Annual Cost I \$20,000,000 approximately

Rationale I Colchester School closed June 2013 due to the power line project.

Project I New School Mundare

Scope I New Construction

Annual Cost I \$7.1 Million

Rationale I Replacement School
Project is well underway with completion date of summer 2016

"Schools are bright and clean and the maintenance staff try to give my child a good learning environment."
-Parent

Project I New School K-9 Fort Saskatchewan

Scope I New Construction

Annual Cost I \$8,772,500

Rationale I Increased enrolment and limitations on adding portables to existing schools.
Requires a new K-9 school for an opening capacity of 600 students.

Project I New School K-9 Sherwood Park

Scope I New Construction

Annual Cost I \$16,920,199

Rationale I Increased enrolment and rapid growth in the North East Quadrant of Sherwood Park require a new K-9 School by 2016. Should have an opening capacity of 900 students.

Project I Replacement School Sherwood Park

Scope I New Construction

Annual Cost I \$10,700,000

Rationale I Present School is becoming too old and is difficult and expensive to maintain. It is also too small to accommodate the increased enrolment. The size of the land does not allow for additional modular locates.

"Schools are bright and clean and the maintenance staff try to give my child a good learning environment."
