

Fort Saskatchewan Literacy and Numeracy Information Night

April 18, 2023 | 5:30 p.m. to 8:15 p.m.

Elementary Session

Encouraging the Love of Reading at Home

How can you help foster a love of reading in your child? This session will focus on how to create spaces and habits that will support your child in developing their own reading life. We will discuss specific strategies to hook children into reading and provide book recommendations that will keep them reading.

Numeracy Game Ideas!

Looking for fun ways to practice math at home? Let's play some games! We will provide a variety of engaging games to play at home with your child that will support their numeracy skills!

Secondary Session

Reading & Writing Strategies

The secondary literacy team will provide strategies to support your child's reading and writing, discuss how to have rich conversations around film and episodic television, and offer a variety of book suggestions for teens and their parents to read together.

Supporting Math at Home

How can you support your secondary math students at home? There are 16 different math courses between the streams in grades 7 to 12. We will discuss the different courses and how content builds from elementary through to high school. We will look at how foundational math skills are an integral part of secondary math and how you can help support math work at home.
