

PREPARING FOR KINDERGARTEN BACKYARD FUN

Sidewalk Chalk

<u>Sidewalk chalk</u> is one of our favourite ways to work on skills, be creative and get moving! Using large arm movements can help lay the foundation for printing. Incorporating shapes, numbers and letters is easy too!

Sensory Bins

Being outside offers natural sensory experiences, but it's also a great place to break out the <u>messy play</u>!

Water Play

Water is a kid favourite and as long as it's used <u>safely</u>, it can be a great way to beat the heat and <u>build skills</u> in a <u>fun way</u>.

Creative Play

Simply bringing out some <u>durable indoor</u> <u>toys</u> can inspire creative play, build language skills and encourage more outdoor time. One of our favourites is a <u>simple mud kitchen</u>!
